

# DOT VOTING

Take a look at the communication strategy draft/drafts of the other group/groups.

Think: which elements of that draft/drafts you like the most.

You have three dots for each draft (use a marker, highlighter or brush tool).

Place the dots next to the elements that you like the most. For example, you like the way of thinking about the target group or one of the tools. If you like something very much, you can put dots next to it.

**Don't vote for your group draft.**

**You have 5 minutes.**
